
User Information

Please, provide the following pieces of information regarding the ISGI web service User (Institute, DataCenter, etc):

- Name & acronym
- Web site
- Full institutional contact (address, phone, fax, email, twitter, Facebook, ORCID ID, etc)
- Full contact of person in charge
- Logo image file (*for being dully referenced onto ISGI web site as regular user*).

ISGI Data Use

Licenses

- Will ISGI data be used as original data files (for an added value in a specific repository)?
- or in a web service for interoperability of the datasets (plots etc)?

Please, clearly indicate in an email, or any other written response, that the User is aware of the following regarding licenses:

The user recognises to be aware that ISGI data files (containing geomagnetic indices and lists of remarkable events) are getting **specific Licenses, attributed by each of the 6 ISGI-Collaborating – Institutes (ISGI-CI)**, for the data series they are in charge of.

As an example, the *aa* index series are getting a *CC BY-NC 4.0* license (<https://creativecommons.org/licenses/by-nc/4.0/>) applied by ISGI-CI: EOST, Strasbourg, France.

The user engages himself to be compliant with the applied license on each ISGI data he may download from ISGI.

Citations and References

- Will Statistics be available regarding the use of ISGI data?

Please, clearly indicate in an email, or any other written response, that the User is aware of the following regarding citations and references:

By using ISGI data, you, as user, accept that an offer of co-authorship will be made through personal contact with the related ISGI-CI whenever substantial use is made of the data for any publication or website.

By using ISGI data, you, as user, **should refer to the ISGI-CI in charge of the corresponding index (indices), the ISGI data repository (<http://doi.org/10.17616/R3WS49>), the INTERMAGNET data repository (<http://doi.org/10.17616/R3XK82>) and the associated geomagnetic observatories.**

DOIs (digital object identifiers) are gradually assigned to the indices data series. This is a work in progress. Up to now, the founding references (articles and documents), of each index or list of remarkable events, are available on the descriptive pages on the ISGI website

Acknowledgements

Please, clearly indicate in an email, or any other written response, that the User is aware of the following regarding acknowledgements:

By using this data, you, as data user, **should acknowledge the ISGI-CI(s) in charge of the corresponding index (indices), the ISGI, the INTERMAGNET organization and the associated geomagnetic observatories.**

We offer two acknowledgement templates. The first is for cases where several geomagnetic indices from various ISGI-CI have been used and it is not practical to list them all. The second is for cases where research results have been produced using a single geomagnetic indice.

Suggested Acknowledgement Text (template 1)

The results presented in this paper rely on geomagnetic indices calculated and made available by ISGI Collaborating Institutes from data collected at magnetic observatories. We thank the involved national institutes, the INTERMAGNET network and ISGI (isgi.unistra.fr).
